«Trauma and Beyond. The Mystery of Transformation»

In this seminal work on the clinical, archetypal and spiritual dimension of trauma, the author offers a compelling vision of the transformative potential of suffering and the dialectic of Dying and Becoming. Wirtz outlines a healing path from fragmentation to integration and illuminates the resilience of the human spirit in the face of severe trauma. Trauma and Beyond will be essential reading and a valuable resource for counsellors, therapists and Jungian analysts who are challenged in their practice with individual and collective traumata.
