

Emanuele Balzani was born in 1966 in Italy. He studied drama in Florence and has worked in theater in Italy, France, Greece, Egypt, Portugal and Cyprus as an actor, director, assistant director and creator of soundscapes. Since 1987, as a visual artist, he has been creating collages and has presented his work in various countries in personal and collective exhibits. Since 2015, a substantial portion of his work is on permanent display in galleries in Toronto and Paris. His interest in Tarot started in the late 80s but the turning point was in 2006 when, after an introduction to bioenergetics, he decided to combine the major arcana of marseilles tarots with the chakras. Since then, he has developed his personal therapeutical approach to cards, which he practices professionally and teaches all over the world.
