

## Invitation to the 2nd Child and Adolescent Conference in Asia: Empowering Asian Expertise: Specialized in Clinical Case Studies

Dear Friends and Colleagues,  
We are honored to invite you to the 2nd Child and Adolescent Conference in Asia, taking place on March 15-16, 2025 in Taipei. Building upon the success of the inaugural event in Kyoto (2023), this conference continues its focus on Specialized Clinical Case Studies

### A Collaborative Learning Platform:

This conference presents a unique opportunity for child and adolescent therapists across Asia to share their valuable clinical experiences. Building on the tradition established in the first conference, we emphasize case studies as the foundation of psychotherapy and analysis practice. All breakout sessions will feature case presentations with assigned discussants, fostering in-depth discussions and collaborative learning specific to the Asian context. To foster a dynamic exchange of knowledge and collaborative learning specific to the Asian context, the conference program will feature case study presentations from therapists across various Asian societies. The conference program and organizing committee will invite case study presenters from each society, and the presenters will then be paired with discussants from other societies. This unique format allows for diverse perspectives and insights on the presented cases, enriching the learning experience for all attendees.

### Submission Deadline: 2024.10.10

Join us in Taipei for an enriching learning experience that celebrates the expertise of Asian child and adolescent Jungians!

Warm regards,

Hao-Wei, Wang  
President of Taiwan Society of Analytical Psychology (TSAP)
